

Google as a Calculator

A screenshot of a Google search for the query "2 + 2". The search results are displayed in a list format. The first result is "2 + 2", followed by "2 + 2 = 5", "2 + 2 = fish", and "2 + 2 = 5 lyrics". Below the search results are buttons for "Google Search" and "I'm Feeling Lucky". The Google logo is prominently displayed at the top. A red callout box with rounded corners is positioned over the search results, containing text that explains how to use Google as a calculator.

Type your math problem right into the Google search box, hit the Enter key, and Google gives you the answer!

Google even knows the order of operations!

If you use Chrome as your browser, this can be done right in your Omnibox* with the same result!

A screenshot of a Chrome browser's Omnibox (address bar) showing the search query "2 + 2". Below the search bar, a calculator interface is displayed. The calculator shows the input "2 + 2 =" and the result "4". The calculator interface includes a grid of buttons for various mathematical operations and functions. A red arrow points from the text "Omnibox" to the search bar.
